

POSITION: Intern Chemistry, Manufacturing & Controls (CMC)

Date: 29/11/2024

Type of contract: Internship

Field: Biotech / Health / Antibiotic resistance

Working time: Full-time

Location: Lyon Gerland, France

Workplace type: On-site

Ref: ATX24-10

Start date: As soon as possible

Presentation of the company:

AUROBAC THERAPEUTICS is a biopharmaceutical company created in 2022 by 3 renowned life sciences innovation companies, *Boehringer Ingelheim*, *Evotec* and *bioMérieux*, to become a global leader in the fight against bacterial infections, Antimicrobial Resistance (AMR) and their consequences in acute hospital settings.

We focus our efforts to develop the next generation of antimicrobial and acute care products, following a targeted precision medicine approach, i.e. associated with rapid diagnostics to support product use.

With strong growth ahead, within an international environment, the company is now looking for an **Intern CMC**.

Description:

As an Intern CMC at AUROBAC, you will integrate the CMC team and contribute to the development activities of our products.

You will report to Head of CMC and work closely with Project Management, Quality Operations & Regulatory Affairs teams.

Missions:

- **Contribute to the oversight of formulation & analytical activities conducted by the CRDO**
 - ✓ Monitor development plan execution, timelines & deliverables, identify and escalate risks
 - ✓ Review technical documentation, analyze and interpret results, propose perspectives
 - ✓ Participate to regular meetings with CRDO, produce/review agendas & minutes
- **Ensure communication with project and management teams**
 - ✓ Share progress of development activities during monthly project meetings
 - ✓ Complete trackers for project activities follow-up
 - ✓ Produce material to support decision making
- **Carry out literature research & technological/regulatory intelligence in accordance with project (excipients, formulation techniques, guidelines...)**
- **Provide support to CMC team activities**

Personal skills:

- Fluency in English is a must-have, French language skills would be a major plus.
- The candidate is rigorous, involved and demonstrate good organizational and communication skills.

Experience:

- Student (BAC + 5/6) in pharmacy, chemical engineering, Master of Sciences.
- A first experience in the pharmaceutical industry would be a major plus.

To apply, please send your **CV and cover letter** application to jobs@aurobac-tx.com mentioning the reference **ATX24-10**.
